WRECKED IN A STORM.

Terrible sufferings of a shipwrecked crew—Faintest from exhaustion.

SAVANNAH, Ga., March 31.—The tug Marcotte went ashore on Cumberland beach yesterday afternoon in a heavy storm. The crew succeeded in reaching the beach after a terrible struggle with the waves, except Stewart Bowen, who was drowned. Fireman Bosen was unconscious when he reached the shore, and his companions thinking him dead, left him and started to walk to Cumberland, 10 miles away. The weather was very cold, and with their soaked garments they suffered terribly. Captain Potter fainted at the end of four miles and was carried by his companions the rest of the way, some of them dropping unconscious on reaching their destination. Later a party went to the scene of the wreck and found Bosen still alive, in spite of the storm and cold.

A LABOR WAR.

Knights of Labor Taking the Places of Locked Out Federation Men.

NEW YORK, March 31.—President Hornthal of the Clothing Manufacturers' association says that there are really only 450 men locked out; that Knights of Labor are rapidly filling the places and members of the Federation of Labor, to which the cutters belong, are leaving it every day and joining the Knights. All contract tailors belong to the Federation, and it is said the contractors may decide to lock them out and not wait for any sympathetic strike.

BURNED OUT.

A Delaware Town Swept Away by a Conflagration.

WILMINGTON, Del., March 31.—The chief of the fire department has received word that the town of Galen, a hamlet of 800 inhabitants, was wiped out by fire this morning. Two hundred houses were destroyed and several persons were severely burned while fighting the fire. As there is no railroad or telegraph office in the village it is impossible to get further details. The houses were all frame buildings, neat and substantial but built closely together.

DAKOTA FLOODS.

Rivers Near Mandan Climbing Over Their Banks.

MANDAN, N. D., March 31.—Heart river is so high that business is suspended on the east end of the Missouri division this morning. The bridge at the crossing of the Heart, just west of Mandan, was carried away this morning and all west-bound trains stopped at Mandan. The Missouri river is still solid and water in the Heart is gradually getting away, but has risen some five feet in the night. So far there is no danger to the town.

A Young Race Horse.

BOSTON, March 31.—The mare Maggie Sultan, 2:30, 6 years old, of the J. Malcolm Forbes stables, to-day gave birth to a filly, sired by Arion, the California 2-year-old wonder, 2:10½, purchased by Forbes a little over a year ago for \$15,000. Arion, it is stated, will be bred to Nancy Hanks during the coming season.

OVER AN EMBANKMENT

A Rio Grande Train Leaves the Track With Serious Results.

NO LIVES WERE LOST

But Several Passengers Were Severely Injured—The List of the Wounded.

LEADVILLE, Colo., March 31.—By the spreading of rails on the Rio Grande track, at the point where the Colorado Midland crosses over it, distant about one and a half miles from this city, train No. 4 left the track this evening and was badly wrecked. There was a number injured, but no fatalities, and it is improbable, so far as can be learned at this writing, that any deaths will result. The train carried 300 passengers, who were mostly excursionists from California. The train was thrown over an embankment and the passengers tossed indiscriminately about, and as far as can be learned, 13 of them were injured, some seriously. The list is as follows:

E. R. Pike, Chicago, cut in the left thigh; Mrs. E. R. Pike, bruised on the head; Mrs. G. T. Haywood, Sacramento, arms and head injured; E. T. Perry, St. Louis, shoulder dislocated and wrist sprained; Mrs. Guthrie, Oakland, Cal., injured in the face; E. N. Nye, New York, broken shoulder; B. L. Wallace, Mercer, Pa., knee-cap badly injured; Annie Lynch, Cobos, N. Y., seriously injured about the body; Mrs. George Wilson, Chicago, head hurt; J. E. Haywood, St. Cloud, back and head injured; Mrs. H. Martin, from Europe, severely bruised; H. Higgins, president of the American smelter, Leadville, face and neck badly cut; Frank W. Owers, attorney, Leadville, badly cut about the head and body.

MARRIED A SQUAW.

The Indian Territory Marshal Is Said to Be Ineligible.

WASHINGTON, March 31.—The sub-committee of the senate judiciary committee was engaged for a time this morning looking into the charges made by W. N. Weeks, chairman of the Indian territory democratic committee, against J. J. McAllister, nominated to be United States marshal of that territory. The charges are that McAllister, by reason of having married a Chickasaw woman, is no longer a citizen of the United States, but of the territory, and therefore ineligible to the appointment; also that he has opposed the democratic organization in the territory and aided the Indians in the recent uprising, supplied them with arms and promised them money; that he is a man of great wealth and power among the Indians and by reason of his influence, alleged to be improperly used, he is not a proper man for a peace officer.

McAllister and friends appeared before the committee this morning and declared these charges were trumped up for the purpose of defeating him. The matter was postponed till Monday. Meantime Weeks will lay the charges before the president.

DEPARTMENT CHANGES.

Secretary Carlisle Is Renouncing the Bureau of the Treasury.

WASHINGTON, March 31.—Secretary Carlisle is busy to-day, making official changes in the treasury department. He has called for the resignation of H. C. McLean, chief clerk of the architect's office and, in his place, has appointed Charles F. Kemper of Stanton, Va. The resignation of Frank Smith, chief of division in the architect's office, was tendered and accepted. Gen. Daniel McCauley, a late appointment as clerk in the treasury department, was appointed chief clerk of the immigration bureau, vice Hall resigned. Two messengers were discharged and two democrats appointed in their places.

FAIR PLAY.

Secretary Carlisle Will Give Each State Its Share of Clerks.

WASHINGTON, March 31.—Secretary Carlisle is having prepared a list of the employees of the treasury department with the salaries that they receive, and will have it arranged by states. The list is prepared already to such an extent as to show a great disproportion among the states, some having many more clerks than their proper quota, and others less. Secretary Carlisle, it is understood, intends, by every means in his power, to reduce the District of Columbia list of employees, that the states may receive their proper quota of appointments.

THE CHOCTAW ROW.

A Special Agent Will Be Sent to Investigate.

WASHINGTON, March 31.—In response to a telegram from Commissioner Gibbons at Antlers, Indian territory, sent last night, saying bloodshed was imminent between the rival Choctaw factions, Secretary Hoke Smith communicated with the secretary of war, with the result that the officer in command of the United States troops nearest the scene of the disturbance was instructed to inform himself on the situation and take whatever action was necessary. Agent Bennett at Muskogee has also been directed to proceed at once to the locality and report on the situation.

GETTING RICH.

Uncle Sam's Cash Has Increased Greatly—General Berdan Dead—Examinations.

WASHINGTON, March 31.—It is estimated that the public debt statement, to be issued to-morrow, will show a gain of available cash during the month of \$1,500,000. The position of assistant meteorological observer of the weather bureau stations outside of Washington, has been placed in the classified service, and the United States civil service commission is now prepared to examine applicants. General Hiram Berdan, inventor of the famous Berdan long range finder torpedoes and rifle, died suddenly at the Metropolitan club this evening. He had been ill for some time with angina pectoris.

SOFT SNAPS.

Government Employees Who Are Drawing Double Salaries.

CHICAGO, March 31.—A special from Washington to the Record says Gresham and Carlisle have brought to light a scandal of sensational dimensions affecting the staff of the Behring sea commission now in session in Paris, and adds: "It is probable Major Elijah W. Halford, who was private secretary to Harrison and was appointed paymaster in the army, will be recalled from his present post as disbursing officer of the Behring sea commission, unless he consents to certain material changes in the conditions of office as Gresham and Carlisle find them. Moreover, it is probable the services of ex-Secretary of State John W. Foster, now serving as American agent of Behring sea arbitrators, would be dispensed with if his recent high position as a cabinet officer did not in some measure protect him from too harsh criticism and too summary action."

The story then goes on to say that members of the staff of the commission have been allowed extremely liberal perquisites in addition to their regular compensation. It says it is not known what Foster receives, but leaves it to be inferred it is quite a large sum, in view of the statement that Halford, in addition to his regular pay as major of \$3,300 to \$3,600 per year, is allowed \$15 per day, or in all about \$6,575 per year. Stanley Brown, husband of Mollie Garfield, daughter of the late President Garfield, is drawing two salaries, one of \$10 and the other of \$15 per day, or \$9,125 per year. Several others receive double pay, the extra ranging from \$6 to \$15 per day.

THE TRIAL IS ON.

Impeachment Proceedings Against the Nebraska State Board Begun.

LINCOLN, Neb., March 31.—The joint convention of the legislature this afternoon, by a vote of 127 to 4, adopted the resolution of impeachment against Attorney General Hastings, Secretary of State Allen, Commissioner Humphrey and ex-Treasurer Hill. Before the adoption of the resolution, Senator Pope offered a communication from the four impeachable, asking the adoption of the impeachment resolution in order that they be allowed a chance to be heard in their own defense. It was received and made a part of the record by a unanimous vote. A committee was appointed to draft articles of impeachment and to prosecute them before the supreme court.

THE MONEY WAS HIS.

President Rousselle Did Not Rob the San Domingo Bank.

NEW YORK, March 31.—The story from San Domingo to the effect that the president of the republic had broken into a French bank is not generally believed here. The amount spoken of as taken, President Rousselle, says F. L. Vasquez, the Dominican consul general here, was adjudged due the president in his personal capacity by the supreme court. He threatened to enforce the decree of the court, as the bank refused to abide by the court's decision. Then the bank appealed to the French consul, and he called for the support of the French warship in the port. Consul Vasquez had semi-official advice yesterday that the matter was still in abeyance.

HOLDING THEM DOWN.

The Colombian Government Has a Claim on the Canal Company.

PANAMA, March 31.—M. Mange, agent for the liquidator of the Panama Canal company, has secured from the Bogota government one month more in which to arrange for the extension of time within which the company must begin work. The principal difficulty in the way of resumption of the enterprise is the compulsory divestiture of the guarantees demanded by the government. The company would be required to continue work on the canal without cessation and forfeit its plant and all its interests on the isthmus in case of any failure to comply with the requirements.

RUSSELL HARRISON'S BABY.

A Reckless Driver in New York Nearly Kills It.

NEW YORK, March 31.—Russell B. Harrison's wife and child were knocked down by an express wagon, as she was wheeling the infant in a carriage on Broadway to-day. A reckless driver turned the corner from Twenty-fourth street at a criminal speed and the ex-president's daughter-in-law had no time to escape. The lady and child were escorted to the Gilsey house and Dr. William Morton was hastily summoned. The doctor looked grave when he learned what had happened, for the child was a patient of his whom he was treating for a nervous complaint.

BOUND TO HAVE A DOCTOR.

Great Falls Democrats Will Nominate a Mayor To-day.

GREAT FALLS, March 31.—The democratic primaries to-night resulted in the appointment of the following candidates for aldermen: First ward, Matt Dunn; Second ward, Dr. Ernest Crutcher; Third ward, John C. Coplin; Fourth ward, C. D. Wile and William Roberts. Either Dr. E. Crutcher or Dr. Gelsthorpe may be nominated for mayor. The convention will be held in the court house to-morrow.

AN EXODUS OF MINERS.

Over 10,000 Preparing to Enter the Mexican Country.

SPECIAL DISPATCH TO THE STANDARD. BONNER'S FERRY, Idaho, March 31.—Navigation will open on the Kootenai river on the second. A large number of miners are waiting here to get into the Lardo and Slocan country. Great Northern officials estimate that 10,000 people will leave their road for here for the mines in the next 60 days. The mines are reached by steamer from here.

The Japanese Temple.

CHICAGO, March 31.—The Japanese temple at the world's fair is completed, and at noon the keys were delivered with appropriate ceremonies to the Japanese commissioners.

Chameleon dress serge at M. J. Connel's only 16½ cents a yard.

HIGGINS WASN'T THERE

Secretary Smith Hears the Opponents to the Revocation.

NO FRAUD WAS COMMITTED

The Irregularities Were Not the Fault of the Applicants—Who Released the Higgins' Telegram—Decision Soon.

WASHINGTON, March 31.—Secretary Hoke Smith, Land Commissioner Lamoreaux and Assistant Land Commissioner Bower heard arguments to-day by the opponents of the revocation of the permits to cut timber in the Bitter Root valley. The hearing lasted for two and a half hours and was as full as the persons interested could have desired. At 2 o'clock, when the secretary was ready, there were present in the waiting room: W. W. Dixon, C. M. Crutchfield, T. C. Marshall, E. L. Bonner, J. H. Durston and Senators Power and Mantle, but Power did not go into the secretary's room to be present at the hearing. Mr. Dixon opened the argument by asking if the secretary had heard from the other side. Mr. Smith said that he had not, and there was no one present in opposition to the permit. Mr. Dixon then went on to tell how the permit was obtained; that the only objectors to it were persons whose rights would have been protected under the permit if they had not protested. Secretary Smith was not anxious to hear about the first permit, but asked for information about the application for a release and extension of the permit. In compliance with this request Mr. Dixon gave a minute account of the way in which the application was made and the license granted for the second time, by which permission was given to cut over the area asked for in the first application. Secretary Smith interrupted and asked if Mr. Dixon knew that Assistant Secretary Chandler had written an opinion against granting the permit that had been allowed by the secretary.

Mr. Dixon did not know of this and he said that he had found it among the papers of the department on the subject. It soon appeared from the questions asked by Secretary Smith that he was seeking to find out why the second application had not been filed in the local office at Missoula instead of coming direct to the secretary and it turned out that that was not irregular as being in disregard of the rules made under the act, the law simply directing application to the secretary of the interior. Mr. Dixon suggested that if a mistake had been made in the proceedings owing to the imperfect understanding of the rules, the department should have set the applicants right. Secretary Smith was impressed with the idea that it was a very important fact that the second permit was obtained without advertisement and he referred to that fact several times. Mr. Dixon suggested that it may have not been regarded as essential, the first permit having been given under the idea that it was all an experiment and the second upon the conclusion of the secretary that it would be well to renew and extend it. There was no suggestion by the secretary that any fraud had been attempted by the holders of the permit and he several times asserted that he had not given out the Higgins dispatch. He said it must have been published by the senders of it. This matter the secretary was very plain about and he repeated more than timber about the repeated irregularities in the description of the area to be cut from Mr. Dixon did not attempt an explanation, but he did say that knowing the people in the local land office he was confident that they did not make the changes, although they must have been made by some one who had access to the papers. When the secretary asked about what would be the effect if the railroad asked to be settled with, Mr. Bonner produced the permit of the Northern Pacific to cut on the land and then the secretary assumed that it would be easy enough, unless the railroad should disregard the informal agreement to let the Blackfoot and Bitter Root companies cut and fall back on the government to be reimbursed for the timber they had lost. While Mr. Marshall was talking the secretary intimated that he should object to allowing any company to cut exclusively on the edges of the river or over large areas along its course while there was timber in places less accessible which would be neglected because it was harder to reach. The two companies before him could not expect to take the cream and leave nothing for others who might follow.

Assistant Land Commissioner Bowers astonished the Montana men by suggesting that they could go over into Washington to cut timber. He was apparently unable to consider the circumstances that constrain the Bitter Root company to cut nearer home. Before the hearing was ended Mr. Dixon asked that while the decision of the secretary was pending as to the application for an extension, the companies be permitted to work under the first permit. Secretary Smith said that he would answer early next week, when he would make a decision on the request for a suspension of revocation.

NOT EXTENSIVE.

The Reported Robbery of the Missouri Pacific Is Small.

ST. LOUIS, March 31.—With regard to the robbery of the Missouri Pacific road by employees, Master Mechanic Bartlett, who is here, denies that it is of wide extent. He, however, admits that several engineers and firemen were discharged yesterday, but states that the loss to the company will not be over \$500.

A City Is Darkened.

McKeesport, Pa., March 31.—The electric company's plant burned to the ground this morning. Loss, \$80,000. Electric lights are left without power and the streets will be in darkness to-night.

Another Lost Attraction.

WASHINGTON, March 31.—The original drafts of the Declaration of Independence and the constitution of the United States will not be sent to the world's fair.

NIPPED IN THE BUD.

A Revolution That Failed to Revolute—Leaders Captured.

PANAMA, March 31.—The government has discovered, just in time to prevent it, a plot to inaugurate a revolution in Costa Rica. The conspirators plotted to attack the military stores and depot and with the captured arms and ammunition to equip the revolutionists.

The leader in the conspiracy was Gutierrez, recently returned from exile, to which he had been condemned on account of a previous revolt against the government. The authorities were advised of their plans, and decided to allow them to proceed and capture them in the act of treason.

The conspirators made an attack on the depot, secured arms and ammunition, and at that moment they were taken by surprise by government troops, who took possession of both conspirators and their munitions of war. The country was at once placed under martial law. The government intends to make an example of the conspirators.

A RAILROAD QUARREL.

The Proposed Reduction of Rates Provokes a Row.

CHICAGO, March 31.—A meeting held this morning, between the representatives of the Western Freight association and those of the transcontinental lines, to consider the distribution of percentages on transcontinental business, Chairman Midgley having issued a circular informing the roads west of the Missouri river that, despite the lower rate to California and Pacific coast points, which they were disposed to put in operation, the roads of the Western Freight association would insist upon full percentages. The result of the meeting was not satisfactory and the roads are now further apart on the subject than before. The Southern Pacific announced positively that it would not agree to pay full percentages. If rates come down, the roads east of the Missouri river must share in the reduction. After a warm discussion the matter went over till to-morrow.

IT MAKES THEM SWEAT.

World's Fair Equimaux Don't Want to Wear Furs in Summer.

CHICAGO, March 31.—Peter Mesher, who represents some Equimaux in the village at the world's fair, has made application for a writ of habeas corpus to release certain residents of the village, who allege that they are being detained against their will and are not well treated. Magistrate Porter of Hyde Park has constituted himself the champion of the villagers, and asserts that the trouble in the village grows out of the refusal of certain Equimaux to wear heavy sealskin clothing on warm days. He investigated the troubles thoroughly and as a consequence, says that he will soon begin suit on behalf of certain members of the village asking heavy damages from the company that brought the people to this country. Mr. Daniels of the company, denies the stories of ill-treatment.

GENERAL ELECTIONS.

The Chamber of Deputies Want the French Government Reorganized.

PARIS, March 31.—The cabinet crisis was the topic of general discussion both in the press and by the public to-day. Most newspapers concur in demanding that the ministry shall be composed of new men. The refusal of the chamber to grant supplies for more than one month is regarded as proof that it desires the dissolution deferred until after the budget is voted and the legislature can come to an understanding with the new cabinet, which, it is believed, will be called upon to issue a decree for general elections. In regular course they would be held next September, but President Carnot has a right to dissolve the chamber at any time upon the advice of the senate, and the comments of the newspapers indicate a strong public tendency in favor of dissolution.

A HOLY DAY.

Good Friday Generally Observed in Eastern Cities.

NEW YORK, March 31.—To-day is Good Friday. Special services were held in nearly all churches. The custom house, sub-treasury and all commercial and maritime exchanges and many other lines of business are closed. As it is not a legal holiday, however, and commercial paper maturing must be met, banks remain open.

The celebration of the Pesach or Passover, will be begun by Jews the world over at sunset this evening and continue eight days among orthodox Jews, while the reformed Jews will observe it seven days.

At the White House.

WASHINGTON, March 31.—Good Friday was spent quietly at the white house. The president saw a few congressmen from 10 to 11 o'clock, when the cabinet meeting began. Mrs. Cleveland usually receives Fridays but did not to-day. Instead she went out for an airing in an open carriage with baby Ruth.

Died of Small Pox.

ST. PAUL, March 31.—A private message received here to-day tells of the death of Maj. T. M. Newson, United States consul at Malaga, Spain, of small pox. No particulars have been received.

Too Much Speculation.

CITY OF MEXICO, March 31.—McManus & Sons, bankers, of Chihuahua, have suspended with liabilities of \$1,000,000. The cause of suspension is land and mining speculation.

Governor of New Mexico.

DENVER, March 31.—President Cleveland yesterday appointed W. M. Eads of Missouri to be governor of New Mexico, vice L. Bradford Prince, whose time has expired.

Men's hats in a great variety of makes and shapes. The celebrated firms of Christie, White, Bennett and Silverman represented in Butte by the M. J. Connell company.

Outing flannels in challis and French flannel patterns, also good shirting designs, plaids, checks and stripes, at M. J. Connell's.

HE SAVED THE TRAIN

A Railroad Laborer Fights Fire Wreckers and Signals the Engineer.

PASSENGERS ARE GRATEFUL

They Make Up a Purse for the Man Who Prevented the Wreck—The Motive of the Wreckers.

PORTLAND, Ore., March 31.—An attempt was made last night to wreck the north-bound passenger train on the Southern Pacific, near Drain. George E. Richardson, a laborer at the end of the trestle, found a rail taken from the track. Five men suddenly appeared on the trestle and attacked him, beating and cutting him severely, and then they pushed him off the bridge to the gravel, 25 feet below, where he lay unconscious for over an hour. He crawled out and made his way slowly down the track.

As soon as he saw the overland train's headlight, he took his handkerchief and set fire to it and then waved it as a signal for the engineer to stop. When the train came to a standstill the trainmen picked up Richardson in a very exhausted condition. He told his story and the trainmen went ahead half a mile, where they found a rail gone.

Had the train been wrecked at that point the result would have been very disastrous. The passengers made up a purse of \$100 for Richardson. Many believe that the wreckers' purpose was not robbery but revenge on the railroad company for discharging white help and employing Japanese.

FOR THE DEAF AND DUMB.

The State Board of Education Located the School at Boulder.

Special Dispatch to the Standard.

BOULDER, March 31.—The state board of education met to-day to locate the site for the deaf and dumb school. Several sites were offered and they chose the one offered by R. W. Jeffries, of 40 acres, 10 acres being donated and the board was given an option on 30 acres more at \$400 per acre. The governor appointed a local committee, consisting of W. L. Kennedy, F. C. Berendes, L. A. Leighton, W. B. Gaffney and D. G. Warner, to act in conjunction with the state board. Arrangements will be made in a few days to take charge of several persons that have already applied for admission to the school. While here, the board was taken to the springs and serenaded by the Boulder band. Speeches were made and everything passed off smoothly. Governor Rickards was accompanied by his wife, T. H. Carter, T. C. Collins and several more of note.

BOY MURDERERS.

Two Chicago Boys Sentenced to Forty Years' Imprisonment.

CHICAGO, March 31.—Two boys, one 14 and the other 15 years of age, were to-day given practically life sentences in the penitentiary for murder, both being sent up for 40 years. The younger of the two is William Blunck and the other John T. Luvaine. The crime of which the boys were convicted was the murder of Albert Eckroth in May last. One of them pushed a revolver in Eckroth's face, while the other attempted to rob him. Eckroth resisted and was shot dead. Blunck was captured running from the scene and by his confession implicated Luvaine, who was arrested the following day. When the verdict was rendered this afternoon Luvaine was overcome, but Blunck took it calmly.

CENSURING EVERYBODY.

A Michigan Grand Jury Got In Its Head.

JACKSON, Mich., March 31.—The jury which has been investigating the escape of Irving Latimer from the state prison and its attending tragedy, to-night rendered a verdict severely censuring the management of the prison for gross negligence generally, and censuring particularly G. Major Tabor and Morris Gill, for carelessness and negligence of duties.

WHOLESALE FORGERIES.

A Louisville Business Man Discovers a Quick Road to Fortune.

LOUISVILLE, Ky., March 31.—A. R. Sutton and his confidential bookkeeper, William M. Beecher, were arrested this afternoon, each on 10 charges of forgery. The Farmers' and Drivers' bank, which was caught for \$15,000, swore out the warrants and other banks have signified their intention of assisting in the prosecution.

BOZEMAN DEMOCRATS.

They Nominate a Good Ticket for the City Election.

Special Dispatch to the Standard.

BOZEMAN, March 31.—The democrats held a convention this evening, and nominated the following city ticket: For mayor, George L. Ramsey; police magistrate, J. P. Martin; treasurer, Paul J. Davies; attorney, W. F. Davis.

MACKAY'S ASSAILANT.

Old Man Rippey Held Under Heavy Bonds for Felonious Assault.

SAN FRANCISCO, March 31.—W. C. Rippey, the old man who shot John W. Mackay and then shot himself, has been indicted by the grand jury for assault to commit murder. His bail was fixed at \$5,000.

Church Property Sold.

PITTSBURG, Pa., March 31.—The chapel built by the late Father Mullinger, together with his dwelling house and stable will be sold to Father O'Gner, the present pastor of the Church of the Most Holy Name within a few days. The price to be paid is \$30,000 and it includes all the real estate above mentioned and also the rails and furnishings of the chapel.

The dress goods department of a dry goods store is the one, second perhaps only to the millinery, that possesses most charms for a lady. The buyer and maker varied the styles the more customers there will be. This accounts, and this only, for the prosperity of the Connell dress goods counter.
